

Honeywell has decided to stop manufacturing **selected** ASD and JZ Silicon pressure sensor. Customers are advised to place final orders as soon as possible but no later than 31<sup>st</sup> Dec 2018. An official EOL notification letter will be issued within the next 1-2 weeks but we actively encourage customers to place final order as soon as possible to avoid disappointment. Please note we have limited inventory available, all products will be sold strictly on a first come first served basis.

Please note this EOL notification only affects the part numbers listed in the table below. All remaining ASD and JZ Silicon pressure sensor are unaffected and we have no plans to EOL these items at this point in time.

Honeywell has an extensive portfolio of board mount pressure products and the TruStability SSC and TSC product lines are suitable replacement products.
