Final Product Change Notification | 201407008F01

Issue Date: 08-Sep-2014
Effective Date: 20-Dec-2014

Here's your personalized quality information concerning products Digi-Key purchased from NXP. For detailed information we invite you to view this notification online

Change Category

Change of die pitch size for PMBT4403 and PMBT2907A family

Details of this Change

Shrink of die pitch size for PNP switching transistors PMBT4403 and PMBT2907A family in SOT23 package.
To give more product information, a new datasheet revision will be published, incl. typical graphs (not published before).

Why do we Implement this Change
Volume ramp-up, increase of wafer fab capacity and flexibility.

Identification of Affected Products
Affected products can be identified by date code after implementation.

Product Availability

Sample Information
Samples are available upon request
Latest sample request date for PCN samples: 6-Oct-2014.

Production
Planned first shipment 15-Dec-2014

Impact

no impact to the product's functionality anticipated.

Data Sheet Revision
A new datasheet will be issued

Disposition of Old Products
Existing inventory will be shipped until depleted

Additional information

Self qualification: view online
Additional documents: view online

Timing and Logistics

Your acknowledgement of this change, conform JEDEC JESD46 D, is expected till 08-Oct-2014.

Contact and Support

For all inquiries regarding the ePCN tool application or access issues, please contact NXP "Global Quality Support Team".

For all Quality Notification content inquiries, please contact your local NXP Sales Support team.

For specific questions on this notice or the products affected please contact our specialist directly:
Name   GA Customer Support
e-mail address   DiscrQA.Helpdesk.GA-Products@nxp.com
At NXP Semiconductors we are constantly striving to improve our product and processes to ensure they reach the highest possible Quality Standards.
Customer Focus, Passion to Win.

NXP Quality Management Team.

About NXP Semiconductors

NXP Semiconductors N.V. (NASDAQ: NXPI) provides High Performance Mixed Signal and Standard Product solutions that leverage its leading RF, Analog, Power Management, Interface, Security and Digital Processing expertise. These innovations are used in a wide range of automotive, identification, wireless infrastructure, lighting, industrial, mobile, consumer and computing applications.
